Sixth Sunday in Ordinary Time, Year C, 13th February, 2022. Bulletin No: 1399.

1,000,000

The birthday of the Million was 1300. Cathedral bells must have rung out loudly and canons boomed their salutes to accompany the joyful shouts of clergy, nobles and peasants at the birth of the *Million*. With the narrow medieval streets filled with drunken celebrators, university scholars must have pondered the rapidly expanding world that now required the ability to count things to the staggering sum of one million. Prior to this awesome event, the largest number used was the Greek *myriad*, which meant 10,000. When asked how many poppy seeds existed in the entire universe, the mathematician Archimedes (200 B.C.) is reported to have said, "myriads of myriads of myriads."

In only seven hundred years we have come to counting in not only hundreds of millions, but billions and trillions, if not zillions of trillions. Numbers beyond those we can count on our fingers are easily lost in the whirl of such staggering figures. As you prepare for tomorrow's feast of lovers and friends, recall the line of an old hit song: "I found my million dollar baby in a five and ten cent store." While your beloved may be worth a million dollars, love can only embrace numbers like one or two, or for those with extra-large hearts perhaps as many as five to ten. Reflect today, on the fact that God does not love a million people, God loves one at a time.

Rejoice on this eve of Valentines Day that to God you are Number One.

FEASTDAYS this week:

Mon 14th: Ss Cyril & Methodius.

St Cyril (826-69) and Methodius
(815-85) a bishop, were brothers
from Greece. They preached the
Gospel in Moravia using their own
translation of the Scriptures and the
liturgy in the local language. These
translations into Slavonic were in an
alphabet, now called Cyrillic, which
they devised. They are honoured as
apostles of the Slavic peoples and in
1980 Pope John Paul II declared
them Patrons of Europe.
